| Nutritional Counseling | (Page 38 of SPD) |
|-------------------------------|-------------------------|

The Plan will provide coverage for nutritional counseling as part of the medically necessary management and treatment of cardiovascular disease, seizures, diabetes, hypertension, kidney disease, eating disorders, GI disorders, epilepsy, renal failure, metabolic disorders, heart disease, liver disease, and high cholesterol. This service is available for up to four (4) visits per Plan Year and must be performed by a qualified health professional such as a registered dietitian or licensed nutritionist. Further, such counseling is provided only following an appropriate physician's written diagnosis of the disease state (s) at issue. Payment for this benefit will be in accordance with the claims payment obligations set by the Plan.
