It is recommended that your application and the best possible proof of age which you can obtain should be sent to this office at least 1 month in advance of the month on which you want your pension benefit payments to begin.

The accuracy and completeness of the information you send to us will speed the processing of your application and provide faster payment of the benefits to which you may be entitled. Please answer all questions carefully and we would like to refer particular attention to the various forms of retirement income payments, as explained under Section III on Page 3.

SECTION III -- ELECTION OF FORM OF RETIREMENT

Under federal law, the Plan is required to provide you a comparison of the relative value of the optional forms of benefit available under the Plan in lieu of the qualified joint and survivor annuity which is the normal form of benefit for a married person. The relative value comparison is intended to help you compare the total value of benefit distributions paid in different forms. The relative value calculation is made by converting the value of the joint and survivor annuity to the value of the single life annuity using interest rate and life expectancy assumptions (7% and 1983 Group Annuity Mortality Table) and comparing it to the optional forms. All comparisons are based on the average life expectancies for someone at you and your spouse's ages. The ultimate value of any optional form of benefit will depend on how long you actually live. Every optional form of benefit under the Plan has an approximately equal value to the regular or normal form of benefit.
