From: The Board of Trustees

Date: March 20, 2007

RE: Schedule of Benefits for the Retiree and Surviving Spouse Program

The Trustees have amended the Plan and Summary Plan Description, effective March 1, 2007, to allow for a Pap Smear/Pelvic Examination once every two (2) years (for average risk). Before this change, the benefit was provided only once every three (3) years. Please note that the Plan still provides an annual benefit if you are high risk.

If you should have any questions on this matter, please feel free to contact the Fund Office.

Sincerely,

The Board of Trustees
